

For Clean & Dry Carpet That Looks Its Best Every Day

- No Wet Carpets
- Deep Clean Anytime
- Carpets Ready for Traffic Immediately
- Spots Won't Wick Back
- Simplifies the Job for Employees
- Lowers Maintenance Costs
- Green Seal® Certified
- WoolSafe Approved
- USDA Biobased

Why HOST®?

Carpet is an important part of how people see your entire facility. When your carpet is clean, everything else looks better. But too often, carpet cleaning is delayed to avoid taking the carpet out of service for long periods of time. The beauty of the HOST Dry Extraction Carpet Cleaning System is that carpet cleaning can be routine and not a special project. Vacuuming, pile lifting, spot cleaning, traffic lane cleaning and overall cleaning can be performed 24/7. Because HOST is low moisture, carpets are back in service as soon as the cleaning is done.

The HOST System lowers maintenance costs:

- No trips to the janitor's closet to fill and dump water
- No need for fans to dry the carpet
- No need to return to the site to take down fans or caution signs
- No wick back of spots, so re-cleaning is eliminated
- No need for off-hour scheduling

HOST is recommended by leading carpet manufacturers worldwide and is safe for all types of carpet including stain-resistant, sisal, wool, and even delicate oriental rugs.

The Dry Extraction
Carpet Cleaning System

The HOST System

The HOST System, with its specially designed equipment and uniquely formulated dry carpet cleaner, is designed for use in many applications to meet all of your carpet cleaning needs. HOST equipment has unique counter-rotating brushes to pile lift and dislodge dirt; and HOST Dry Carpet Cleaner contains a balanced blend of water, detergents, wetting agents and natural ingredients. As HOST is brushed through the carpet, the absorbent particles deep clean by dissolving, trapping and removing spots, spills and greasy, oily dirt. After vacuuming up the HOST, carpet is clean, dry and back in service.

Special counter-rotating brushes insure that HOST Dry Carpet Cleaner deep cleans and removes ground-in dirt.

Easy Employee Training & Improved Safety

- Training is easier with one machine, one product and one system
- HOST equipment is easy to operate so it doesn't require a designated employee—anyone can do it
- No chemicals to mix
- HOST Training Schools are held in Racine, Wisconsin, and in locations worldwide
- Technical support services available by calling 1-800-558-9439 or visiting www.hostdry.com

HOST Reduces Allergens & Improves IAQ

- The HOST System of applying HOST Dry Carpet Cleaner to the carpet, brushing it through the carpet and then vacuuming up the HOST Dry Carpet Cleaner removes dirt and reduces allergens. Research studies have shown that one cleaning with the HOST System using HOST Machines reduces:
 - Dust Mites by 78%
 - Dust Mite Allergens by 75%
 - Cat Allergens by 85%
 - Mold Spores by 85%
- There is no mold or mildew from wet carpets
- HOST Machines are manufactured in an EPA registered facility (EPA Registration No. 074202-WI-001)

Computer Aided Maintenance Plan (CAMP®)

- CAMP is a customized maintenance plan for all carpeted areas in the facility using your architectural plans and traffic patterns
- With CAMP you can improve carpet maintenance management and results
- Each CAMP includes:
 - Detailed, color-coded maps for vacuuming, spotting, traffic lane cleaning and overall cleaning
 - Cost summary that makes budgeting easy
 - 12-month calendar for organizing and scheduling daily activities

Environmentally Preferred

Laboratory testing shows that HOST Dry Carpet Cleaner is natural, nontoxic, biodegradable and safe for people and pets. It is Green Seal® Certified, certified Biobased by the USDA and has negligible airborne dust and VOCs.

What is HOST Dry Carpet Cleaner?

HOST contains a balanced blend of water, detergents, wetting agents and natural ingredients. As the low moisture HOST Cleaner is brushed through the carpet, the absorbent particles deep clean by dissolving, trapping and removing spots, spills and greasy, oily dirt. Like a sponge in a kitchen, HOST holds and controls the cleaning liquids so dissolved dirt doesn't run into the carpet backing. After vacuuming up the HOST Cleaner, carpet is clean, dry and back in service. HOST is natural, non-toxic, biodegradable and safe for people and pets.

HOST Carpet Spot Removal Kit

A must-have for the professional cleaner or the in-house staff. Everything needed for cleaning spots and spills quickly. Kit contains: two 2.2 lb. packs of HOST Dry Carpet Cleaner, one 8 oz. bottle of Spot Remover, one 7 oz. spray bottle of Pre-Clean, a white towel and a HOST Spotting Brush. **C1426**

HOST Pre-Clean

Premixed PREP in a handy to use 7 oz. pump spray bottle. All the benefits of PREP without having to dilute and mix the product. Case of 12 - 7 oz. bottles. **C1630**

Keep Your Carpet Cleaner...Longer.

The trick to preventing spots and spills from turning into permanent stains is to treat them immediately. Unlike some other cleaners, HOST can even be used on wet spills. And because it is low moisture, spots won't wick back. Routine cleaning of high traffic areas such as entranceways and hallways will also improve the appearance of carpet.

Apply HOST

Use the HOST spotZAPPER Brush for stand-up spot cleaning

Also great for cleaning grout in hard-to-reach areas

Threaded Handle for spotZAPPER brushes. **C1867**
